

Dürr Megtec can supply burner and burner management on oxidizers, dryers, plenums and heat sources. This includes service, replacement or upgrading your burner system and controls to:

- Bring your system to current code
- Upgrade to meet international standards
- Replace damaged or leaking components
- Handle increased production requirements
- Reduce turndown and improve reliability
- Ensure burner safety
- Reduce NO<sub>x</sub> emissions

*Dürr Megtec has extensive experience with various burner manufacturers including:*

- Maxon
- Eclipse
- North American

*Systems include:*

- Nozzle mix burners
- Line burners
- Low NO<sub>x</sub> burners
- Combustion blowers
- Flame safety and burner management
- LP, natural gas or oil systems
- Complete fuel trains

FM or IRI Fuel Trains
